

Adult Behavioral Health Systems Task Force

Department of Corrections
June 13, 2014

Amy Seidlitz, Assistant Secretary
Offender Change Division

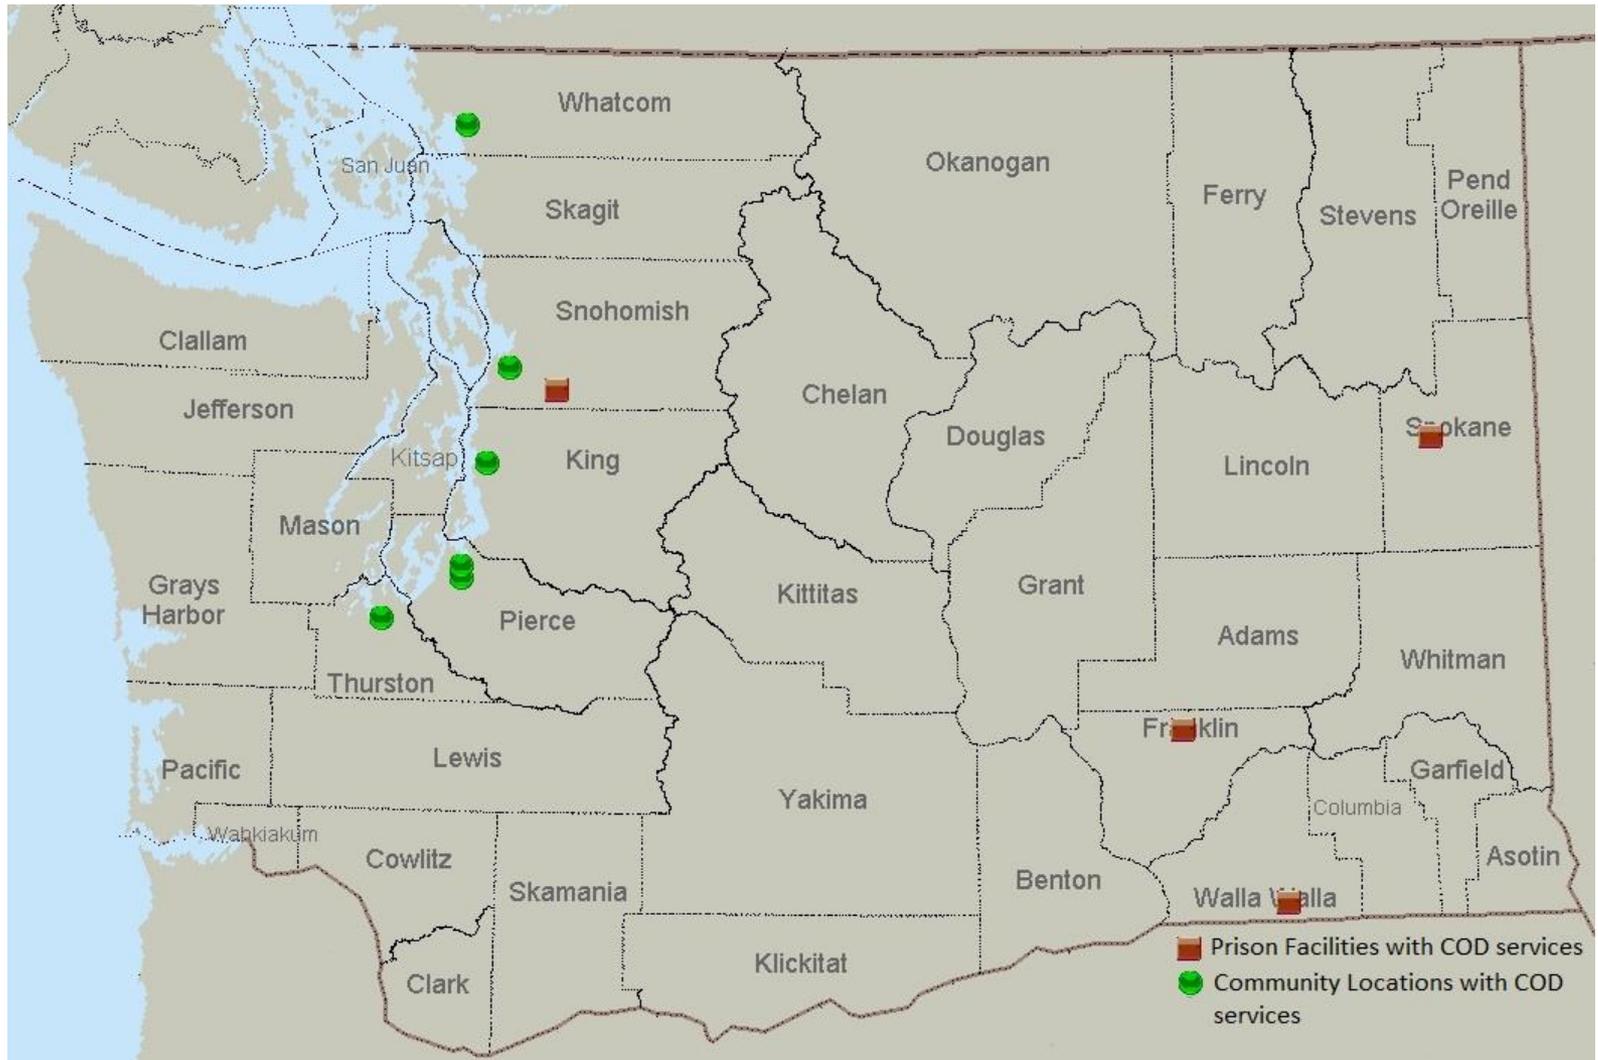

DOC Substance Abuse Treatment Overview

- Two primary contractors –
 - Residential DOSA and Community Inpatient
 - All treatment within our prisons, work releases and a majority of the treatment in our community justice centers/field offices.
- Standard curriculum from manual
- Focuses on reduction in recidivism
- Cognitive Behavioral approach – with Motivational Interviewing
- Therapeutic Community treatment available through both contractors

DOC Substance Abuse Treatment Overview

- Priority to Drug Offender Sentencing Alternative and Family Offender Sentencing Alternative offenders and those with other Court and/or Indeterminate Sentencing Review Board Orders
- Target Criminogenic Needs in addition to Chemical Dependency
 - Focus – reduction in recidivism
- Deliver evidence based or research based programs (curriculum evaluated by WSU)
- Provide a continuum of services
 - Connection to services from prison to work release to community, from TC /residential to out-patient. DOC coordinates treatment with offender and assigned Community Corrections Officer or Classification Counselor and schedules appointments

Co-occurring Disorder (COD) Services

Count of Assessments by Location

OP=Out Patient
IOP=Intensive Out Patient
IIP=Intensive Inpatient
TC=Therapeutic Community
COD=Co-occurring Disorder

*Field Location includes Field Offices, Work Releases, and Intensive Inpatient facilities

DOC Chemical Dependency (CD) Funding

- ▶ Prison CD Funding for Fiscal Year 2014: \$3,019,000
- ▶ Community CD Funding for primary contractors for Fiscal Year 2014: \$9,149,000
- ▶ Residential DOSA \$5,591,000

Challenges

- ▶ Keeping groups at full capacity in the community
 - Not available for treatment –
 - serving violation time
 - On warrant status
 - Availability of offenders by location does not always align with projected need
- ▶ Ensuring services are available when needed, with minimal wait time
 - Difficult to control flow
 - Ensuring the right treatment is available as soon as possible from release from jail/prison
 - Availability of Chemical Dependency Professionals

Questions
